195 Extension & Zoning

In view of the impact on Zoning in Mattapoisett, the Zoning Board feels that the status of Route 195 extension from Fairhaven to Wareham should be clarified before the Special Town Meeting on Zoning. In the interest of the people of Mattapoisett, the following facts are of major importance:

1. Some time ago, we were informed that the southern route (utilizing a portion of the old railroad bed) had been selected by Federal and State authorities. North Street was indicated as an access road to Route 6 using a "1/2 Clover Leaf", (or 2 leaf clover).

2. The Zoning Committee (later the Zoning Board) in its report and map to the Board of Selectmen recommended that a new access road be constructed from the "1/2 Clover Leaf" east, then south (roughly parallel to North Street) to the Special Business Zone, then easterly along the northern edge of the Special Business Zone to the Limited Industry Zone, then to Route 6 opposite the Church Street-Route 6 intersection. The factors which influenced this recommendation were as follows:

A) The new access road would open up property to the east of North Street (not presently built upon) and would give a desirable access to the Special Business Zone, to the

Limited Industry Zone and to Route 6 at a convenient point, thereby appreciably improving the tax base.

B) Bypassing North Street would help to preserve property values and tax base in this area which would otherwise be adversely affected, in particular in the case of possible eventual widening of North Street.

3. These recommendations were considered to be entirely practical, and were agreed to by the Board of Selectmen, who then took up the matter with the Federal and State authorities. Subsequently, they informed the Zoning Board that the above-mentioned access road was not a subject for Federal funds, since only about 1000 ft. could be considered.

4. Subsequently, we were informed that the Route 195 extension would cross North Street somewhat north of the railroad bed, because of right-of-way considerations.

5. Just prior to the Special Zoning hearing on Monday, October 23, the Selectmen informed us that they had just received a map with an accompanying letter indicating that the Route 195 extension was in the final planning stages. The map, which was exhibited at the hearing, showed the Route 195 extension located north of the old railroad

according to the map scale, seemed to be quite large.

6. We have also been advised that it is planned to complete the Route 195 extension from Fairhaven to Wareham at one time (i.e. without temporary diversion of the main through traffic flow down North Street.).

7. Because of the succession of changes and other considerations, the Zoning Board did not feel justified in showing Route 195 and access on the Zoning map, since it could be inaccurate and misleading. The Zoning Board has, however, shown the Limited Industry Zone extended to the old railroad bed road to provide access to the Limited Industry Zone from Route 195 exits.

8. Obviously, a road extending from the old railroad bed road along the Limited Industry Zone boundary to Route 6 could also be an alternate access road from Route 195 to Route 6.

9. Accordingly, the Zoning Board has recommended that the Board of Selectmen:

a) Take the necessary steps without delay to project a separate access road as outlined above east from the "Clover Leaf" then south to Route 6 as a "Chapter 90" construction project.

HOW TO CUT HEAT COSTS:

5 tips that can help you get more warmth from your heating oil dollar

1. Set your thermostat back when you go to bed at night—save significantly on your heating oil bills.

2. Be sure your burner has sufficient air. Oil needs lots of air to burn properly. Don't block off air supply to burner. Don't allow dust and lint to accumulate on air intake openings.

3. Don't block hot air vents or cold air return ducts with furniture.

4. Let us clean and adjust your oil burner. Then help keep it clean by using new clean-burning Shell Heating Oil. Shell Heating Oil is now specially climatized for this area.

5. Stop air leaks around poorly fitted windows by using weather-stripping or storm windows.

It was decided to broaden the Scholarship policy and Mr. David S. Hagen was appointed Scholarship Coordinator. The Association awards a scholarship to a graduate of Old Rochester Regional High School who wishes to follow music as a career.

Mr. John Pandolfi, music director of the Regional Symphonic Band, reported that the band is enthusiastically rehearsing for the first concert of this season to be held on November 19.

Mrs. Macy, treasurer, reported that the campaign this year for sponsors and patrons was drawing to a close and that the returns were the largest in the history of the band. Tickets may be purchased at the door for any concert. Season tickets may be purchased at the first concert, or by sending a check to Tri-County Music Association, Inc., Box 201, Marion, Mass.

FORAM TO HOLD MEETING

Friends of Old Rochester, Arts and Music will hold their second meeting of the season next Tuesday evening, November 14, at 8:15 P.M. in the music room of the high school.

This will be a very important meeting, because it is expected that the musical to be performed this school year by the music department will be announced. Committees will be chosen to assist the director of music, Mr. Mazmanian, in presenting another outstanding show as successful as the productions of the last five years. Also, the rest of the programs to be presented during the year will be discussed in detail.

HISTORICAL STUDY GROUP MEETING

Mrs. William Warburton was guest speaker at the October meeting of the Rochester Historical Study Group which was held at the home of Mr. and Mrs. James Gurney.

Mrs. Warburton presented the group with the original records of the Rochester Center Village Improvement Society, and traced the history of this organization which existed from 1896 until 1936. The main purpose of the society was the beautification and care of the area around Rochester Center which included the planting of numerous trees, and at one time the installation of street lamps and sidewalks. The Society also formed for a brief period Rochester's first Historical Committee.

A large wooden bound portfolio, which was designed and made by William Mello, a senior Industrial Arts major at the New Bedford Vocational High School, was donated to the Historical Group by Mrs. Frederick Underhill, Sr. This will be used to hold and preserve all the group's important records and papers.

the Historical Study Group will exclusively handle the donation and presentation of exterior date plaques to Rochester homes which are more than 200 years old. A committee consisting of James Gurney, Mrs. Maurice Gifford, Harry Brown and Mrs. Robert Sherman will supervise the selection of qualifying homes.

The large map of Rochester, drawn up by members of the group, was displayed with an overlay showing the South Purchase - as the North Rochester area was known - with its five original proprietors.

A committee was selected to investigate the possibility of preserving and restoring an old sawmill in town. The members are Conrad Bernier, Frederick Underhill, Maurice Gifford, Ralph Walker and Clifton Vaughan.

The next meeting will be November 29th.
